It has been one year since this change and the old logo and name are officially decommissioned as of October 1, 2021.

Please no longer wear any t-shirts or apparel that have the previous logo or name (SeniorCorps) to school or any official Foster Grandparent function or event.

You all have received new t-shirts with the new AmeriCorps Seniors branding, but if you are in need of another, let us know!

TRICK OR TREAT?

According to TIME, the American tradition of trick-or-treating as we know it today may have started with kids trading songs for treats in the early 20th century, but it really gained popularity in the '30s and '40s, when children were offered everything from homemade treats to coins, toys, and fruit. It wasn't until the 1950s that candy companies began specifically promoting their products for Halloween. (Pictured left is a collection of vintage candy boxes.)
